[My reading list](#)

### Experience

#### Igloo Lead Product Designer

I'm designing rental and financial platforms for the Scandinavian market. End-to-end product design across multiple products, collaborating directly with engineering and executives. Shaping product strategy with the CEO and lead engineers as we expand into new markets.

Aug. 2024 to Present — Remote — Scale up

#### Righthub Lead Product Designer

Led design of the core IP portfolio platform and sub-products for IP management and brand protection following Righthub's acquisition of Rightly. Built and maintained the design system in Figma. Ensured close collaboration with users and customers. Promoted design culture through reviews, documentation, and alignment across product, design, and development.

Jul. 2022 - Aug. 2024 — Aarhus (London) — Scale up

#### Rightly UX Designer

Joined as first in-house designer at startup stage. Conducted user research and facilitated workshops to align on product vision. Translated business goals into product strategy, UX flows, and UI designs. Collaborated closely with developers and founders to build a strong product culture.

Jun. 2021 - Aug. 2022 — Aarhus — Start up

#### Aarhus University Teaching Assistant

Mentored group projects, facilitated theory sessions and workshops, and graded papers across two courses. Supported bachelor students in Fundamental IT Product Development and master's students in Social and Aesthetic Interaction Design.

Aug. 2019 to Jan. 2021 — Aarhus — Student work

### Education

#### Aarhus University

BA. IT Product Development  
2016 to 2019

#### Aarhus University

MA. IT Product Development  
2019 to 2021

### Philosophy

Design shapes how we think and who we become. It should make people capable, not dependent. Craft comes from empathy, knowledge, enthusiasm, and care. I believe we can do better together.

### Tools

I love pen and paper for exploration and Figma for polished UI work. But lately something has shifted: AI tools like Claude Code, combined with my coding and design skills, let me work directly in the medium I'm designing for. That symbiosis has changed how I work
